**Aaron·Nursing**  
HOME HEALTH SERVICE

We treat  
**everyone**  
the same.

# Like family.

Distinctive. Our relationships, our personality, our spirit. Our care giving and receiving needs are as unique as we are.

Compassionate care in familiar surroundings speeds the healing process. Our services enable people to remain in their homes for recuperation or therapy.

Aaron Nursing can provide licensed and certified professional medical care and personal assistance. Our nurse agency license allows us to provide staff relief in hospitals and nursing homes.

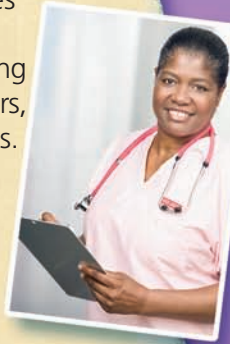

Founded by nurses and family owned and operated, we invite you to call us to discuss your unique needs.

Our staff will work closely with your physician to provide a comprehensive home health plan.

## **Our Services**

Our professional staff includes registered nurses, licensed practical nurses, certified nursing assistants, medical social workers, housekeepers and companions. We provide 24-hour on-call service. Registered Nurses manage your care, making regular visits and communicating with your physician.

## **Rehabilitation**

Our licensed physical and occupational therapists and speech pathologists administer professional therapy.

## **Personal Care**

Our home health aides can provide up to 24-hours of daily care, assisting with bathing, grooming and personal hygiene needs.

## **Monitoring**

As the exclusive provider for Honeywell HomMed™ monitors, we can provide daily vital signs and medication reminders around the clock. This state-of-the-art system communicates patient data to our clinical station, the data is then reviewed by a registered nurse, who is able to provide that information to your physician.

## **For More Information**

Call us. A registered nurse is available for a free evaluation visit. A number of convenient payment plans are available, corresponding to the level of care each unique situation requires.
